

Beginner-to-Production Container Roadmap

Where this series ends and the From Laptop to Production series picks up.

Fundamentals -> Dev Env -> CI/CD -> Production

YOU NOW KNOW

- Images vs. containers
- Volumes and networking
- Dockerfiles and layers
- Docker vs. Podman

NEXT: DEV ENVIRONMENT

- Dev containers in the repo
- Versioned, shared setup
- One command to start
- No private setup docs

NEXT: DELIVERY

- GitHub workflow and CI
- Pull request previews
- Safe database migrations
- Secrets done right

NEXT: PRODUCTION

- Staging and production
- A real release path
- Start at "Works on My Machine"
- ...From Laptop to Production, Part 1
